Can't call a staff member when staff are offline

If there aren't any staff members online and you are trying to report a rule breaker. You may visit the forums and send a report there, or visit the steam group and write a report there.

Helpful Commands

- !MOTD** - → Pulls up the server MOTD. The MOTD displays the rules, server content, website, and help page.
- @** - - - - → Used to call an admin/send a staff report.
- /afk** - - - → Useful when going afk. Once this command is used you won't be auto demoted until after 10 minutes, and your salary will be paused.
- /advert** - → Used to send an advertisement to everyone in chat.
- /event** - → Used to alert police, and the mayor that you are raiding, kidnapping, or committing a major crime.
- /g** - - - - → Used for group chats. (Only works on certain teams)
- /ooc** - - - → Used for Out Of Character chat. Not RP Related.
- /911** - - - → Used for to call the police, ambulance, or firefighters during an emergency.
- /pm** - - - → Used to send a private message to someone.
- /broadcast** - → Used to broadcast the laws as the mayor.
- /dropmoney** - → Used to drop a given amount of money.

Website Issues Q/A

Q:

Why haven't I received an activation email?

A:

Sometimes Google filters out certain emails so you may find it in the spam folder.

Q:

Why can't I post anything?

A:

Because you need to register and activate an account on the website first.

Q:

Still haven't received any activation emails?

A:

Report the problem to the owner via Steam, or in-game.

Q:

How do I get a new password if I lost my old password?

A:

Go to the [login page](#) then click lost password then put your email in. After doing this you should receive an email giving you a link to make your new password.

Q:

Why hasn't my staff application been read?

A:

There could be multiple reasons for this. 1 staff applications could be closed, 2 staff haven't looked at any staff applications yet, or 3 it didn't follow any of the guidelines.

Donation Package Issues

Once you've donated all donation packages may take up to 12 hours or more to be fully processed. If your donation package hasn't been processed within 24 hours then you may contact a High Ranked staff member, or you may contact the owner via steam. Sometimes there could be issues with paypal so the owner may have not recieved any notification or payment. If you haven't recieved a donation package within a full week (7 days) you may request to refund the payment.

Please remember that there are no refunds once your donation has been accepted!
